p. SF-34	Under Wildland Fires, second paragraph, the statement "some sections of JTNP have been mapped as having a very high fire threat." JTNP has not mapped this area as "very high fire threat."	Identify source or remove.
p. SF-53, Exhibit SF-3	This map of city evacuation routes shows Utah Trail, south into JTNP as an evacuation route. In the text narrative, you identify the Sheriff will designate evacuation routes. The National Park stands ready to assist the city in Mandatory Emergency evacuations. We would like to stress this would be for declared emergencies and not routes of convenience for example if the highway is temporarily shut down because of a motor vehicle accident and at no time would semi-tractors would be permitted.
